

BRETT WISKAR

Keynote Speaker

AV Requirements

Brett's keynotes are fast-paced, visually rich and highly interactive, built around strong audio, crisp visuals & a clean stage setup to create an immersive experience for audiences. Brett prefers to present slides from the on site laptop integrated with the venue's AV equipment. This allows for smooth transition between speakers & ensure consistent technology running the entire event.

All presentations are delivered through PowerPoint to guarantee high-quality visuals, smooth animation & reliable embedded video playback. If your event requires a different slide format, please advise at least five business days in advance so the presentation can be converted & tested.

Visual

- HD projector or LED screen (1080p minimum)
- Screen sized appropriately for room/audience
- Slides include fine detail and occasional video/audio
- Brett will advise in advance if video/audio playback is needed HDMI input preferred (adaptors supplied)
- Confidence monitor strongly preferred (current/next slide + timer)

Microphone

- Headset mic
- Lavalier or lapel mic
- Handheld (last resort)
- Brett moves a lot on stage — headset gives best experience

NOTE: lecturn mounted microphones are not appropriate.

Audio

- Professional in-house PA Audio feed from presenting laptop to ensure video elements are heard in the venue.
- Audio check 30-60 minutes before show
Clear audio essential for embedded media

Laptop & Clicker

Brett provides:

- Windows 11 laptop
- USB-C/HDMI adaptors
- USB backup of presentation
- Brett controls slides remotely presented from the event venue laptop coordinated with the venue AV crew.
- By prior arrangement, Brett may present from his Windows 11 laptop. Prior notice ensures allocation of time testing with the venue AV.

Stage Setup

- Clear stage (no lectern/podium — please remove or move aside)
- Space for movement
- Two bottles of still, room-temp water
- Small table/stool (optional)
- Bright, even lighting across front of stage If a lectern is used by other speakers, please shift it aside for Brett's session.

Run-of-Show & Prep

- Tech/sound check available before event. Usually during session break.
- Please introduce stage manager /showcaller if applicable
- For multi-speaker events, share schedule so Brett can coordinate transitions and program flow.
